CHS Daily Threshold Contract

Daily pricing at the market close each day as long as the market close price is at or above a threshold that is picked by the producer. Amount of bushels priced each day will be total unpriced bushels divided by remaining days in program.

Not all bushels are guaranteed to price

Program Dates:

July 2021 program:

July 2021 Corn or July 2021 Soybeans

-Starting now until June 25, 2021.

-Cost: Corn 4 cents/bu, Soybeans 4 cents/bu.

1 year program:

December 2021 Corn or November 2021 Soybeans

-Starting now until August 13, 2021.

-Cost: Corn 6 cents/bu, Soybeans 6 cents/bu.

Example How it Works:

Producer puts 10,000 bu in 1 year corn program with \$4.30 pricing threshold.

Day 1- Market closes at \$4.35, 10,000 unpriced bushels/145 days remaining = 68.97 bushels priced at \$4.35, 9,931.03 bushels remain unpriced

Day 2- Market closes \$4.28, No bushels are priced

Day 3- Market closes \$4.25, No bushels are priced

Day 4- Market closes at \$4.40, 9,931.08 unpriced bushels/142 days remaining = 69.94 bushels priced at \$4.40, 9,861.09 bushels remain unpriced

***No minimum bushel quantity**

***Basis will need to be set before delivery**
